

MARINE SERVICES

AB Technical Services, with over 27 years of experience in the field, has established itself as a leading provider of air quality control and ventilation system cleaning services for the luxury yachting industry. The company's team of marine system experts is at the forefront of delivering the safest cleaning techniques tailored to the complexities of a superyacht, alongside the latest sanitation technologies.

Since its inception, AB Technical Services has undertaken work on thousands of yachts, ranging in length from 65 ft to over 400 ft. The company holds numerous professional certifications and boasts a team of rigorously trained, certified technicians.

Strategically located in key yachting destinations such as Istanbul, the Aegean and Mediterranean regions, and the Black Sea, AB Technical Services proudly serves vessels from all over the world.
